Name	**Timer**	**Standard, 230 V**	**Standard, 400 V**	**Pro**	**Master**	**Mono**	**Auto**	**Auto-Mini**	**VG**	**Level**
Supply voltage, V	230	230	400	230	230	230	230	230	230	230
Control of 1 filter pump	■	■	■	■	■	■				
Control of 2 to 8 filter pumps				■	■					
Water temperature sensor	■	■	■	■	■	■				
Water filling control		■	■	■	■	■				■
Dosing equipment control	■	■	■	■	■	■				
Integration with the Auto unit		■	■	■	■					
Integration with the Auto-Mini unit		■	■	■	■					
Integration with the VG unit					■					
Integration with Besgo valve				■	■					
Electron. pump current protection 10A	■	■	■	■	■					
Integration with set of level sensors		■	■	■	■	■				■
Automatic filter flushing						■				
Automatic filter flushing (only in conjunction with Standard, Pro, Master)							■	■		
Automatic flushing of the filter equipped with a 5-valve valve group (only in conjunction with the Master)									■	
Emergency (drainage) sump pump control										■
